

AMENDMENT TO THE SPECIFICATION

Please replace the second paragraph on page 4 of the specification with the following:

“But the system and method according to the invention can be applied much more universally too, for instance,[[y]] by establishing certain binary models so that only persons with certain facial characteristics will be recognized in order to make a distinction according to such aspects as mimics, race, or gender. The method and system according to the invention are not even restricted to face binding because the model for which the search is made also might comprise a hand or another one or more parts of the human body or some matter.”
